Re: Letter of Supply for Schedule 51v

Dear (b) (6)

This Letter of Supply is in reference to the offer Aviate Enterprises Inc. submitted in response to the General Services Administration's Solicitation 6FEC-E6-060173-B

In the event the Aviate Enterprises Inc. (Contractor) has been or is awarded a Multiple Award Schedule (MAS) contract under the aforementioned solicitation/contract number, W.W. Grainger will assure an uninterrupted source of supply, with sufficient quantities of product to satisfy the Government's requirements, for the duration of the contract period (to include option periods).

W.W. Grainger understands that all products and services offered on Contractor's MAS contract must be compliant with the Trade Agreements Act (TAA)(19U.S.C. 2501, et seq.). Further, while we understand that responsibility for TAA compliance resides with Contractor, W.W. Grainger agrees to work and cooperate with Contractor to support Contractor's TAA compliance of items offered on its contract and provide country of origin information.

W.W. Grainger understands that if it certifies to Contractor that an item being supplied meets or exceeds the minimum content levels established under the Comprehensive Procurement Guidelines (CPGs) program, then, in order for Contractor to display the appropriate environmental attributes on its GSA Contract for the item, Contractor must retain proof in the form of a copy of the certification from the manufacturer or a copy of the environmental organization's certification or be able to obtain such proof from Grainger on request. A document showing the percentage of the recovered materials and post-consumer materials in the item offered must also be retained by Contractor or be available from W.W. Grainger to Contractor upon request. Accordingly, Contractor and W.W. Grainger will mutually agree on a process to facilitate Contractor's compliance with it EPA/CPG obligations under the Contract.

W.W. Grainger understands that if no proof of the environmental attributes being claimed is provided then Contractor will not be allowed to display the applicable environmental attribute icon.

The person whose signature appears below is authorized to make the commitments noted above.
